

Cadillac CTS Sport

Vehicle Specifications

CADILLAC CTS SPORT

As the new 2008 Cadillac CTS sedan garners critical acclaim, the CTS Sport concept puts a unique twist on this hot new luxury sedan. The CTS Sport concept suggests a customization theme emphasizing the car's performance character. The show car includes new front and rear fascias, a modified hood, rear spoiler and 20-inch wheels. Recaro sport seats highlight the cabin. Performance is derived from a production-spec 304-hp 3.6L Direct Injection V-6 that exhales through a Corsa cat-back exhaust system with 3.5-inch outlets.

Design details include:
