## CADILLAC ESCALADE SPORT

The Cadillac Escalade Sport concept showcases even more of the dramatic presence and power that has made Escalade the sales and image leader among large luxury SUVs. The Escalade Sport showcases a small-block V-8 that produces approximately 550 horsepower and is backed by a heavy-duty 6L80 six-speed transmission. Modified front and rear fascias, along with enhancements including 24-inch wheels, a lowered ride height and special aero rockers provide the Escalade Sport with a distinctive look.

Design details include:

- New hood
- “Sport” badging
- Billet aluminum pedals
- Specific gauge cluster graphics
- High-performance brake package
- New side air extractors with lights
- Twenty-four-inch, forged alloy wheels
- 6L80 six-speed automatic transmission
- Retractable side steps with aero rockers
- Aluminum cargo floor with runners and tie-downs
- Small-block V-8 with approximately 550 horsepower
- Modified center console with new shifter and shift knob
- Dual rear exhaust Corsa cat-back exhaust with new tips
- Sport-tuned suspension with two-inch-lowered ride height
- Unique air induction and exhaust systems; underhood cover
- Modified front and rear fascia with new upper and lower grilles
- Leather-wrapped upper instrument panel, console and upper door panels
- Recaro sport bucket seats in first and second rows; third-row seat deleted
